QUALITY OF LIFE

The DomusVida units have been thoughtfully designed with your well-being and every need in mind.

DomusVida provides a complete set of preventive and rehabilitation health-care, hotel and entertainment services, so that our Residents feel like they’ve come home.

A multidisciplinary team of specialized professionals ensures a proper individual care plan, with 24-hour nurse care and general and specialized medical supervision.

DomusVida offers both temporary and permanent stays. It also provides solutions for those who need rehabilitation, post-surgery recovery or are simply searching for a charming place to stay during holiday periods.

Our DomusVida units are located in two extremely privileged areas: Estoril, overlooking the sea, and Lisboa, in the heart of the city of Lisbon.

Contact us now and discover how easy it is to take care of your life.

**ASSISTANCE**

Our DomusVida units provide a complete set of services, including preventive and rehabilitation health-care, hotel services, assistance, physical and intellectual activities and permanent surveillance.

Our Residents receive all the support they need in their daily activities related to hygiene and comfort, mobility, diet, medications, etc. We ensure a specific and targeted response to cognitive frailty, based on group sessions or individual interventions, provided by the Cognitive Stimulation Unit.

**Care Assistance**
- Individualized care plan
- 24-hour nurse assistance
- Medical assistance of general practitioners
- Medical assistance of specialist practitioners
- Drugs supervision and administration
- Pharmacy
- Assistants with specific geriatric training
- Cognitive Stimulation Unit
- Physiotherapy, Occupational Therapy and Speech Therapy

**Active life Style, Preventive and Preservation activities**

The main objective at DomusVida is to foster the autonomy and independence of each Resident while respecting their privacy and promoting an active lifestyle.

We favour the contact between the Resident and his/her family and the development of numerous activities. That way, our Residents can start their day with gymnastics lessons, go for a stroll in the garden, invite family for lunch, enjoy reading a good book in the library or have a good time with other Residents. However, they can always enjoy their privacy, if they wish to do so.

Every day, we draw up a schedule that invites Residents to actively participate in a varied range of activities, each one with different objectives and beneficial results.

**Physical, intellectual and cultural activities**
- Painting workshop
- Music
- Movement and gymnastics
- Cognitive Stimulation
- Hydrogymnastics (Estoril unit)
- Tours

**Rehabilitation & post-chirurgical Programmes**

DomusVida provides Rehabilitation & Post-Chirurgical Programmes aimed to improve our Residents’ functional capacity, recovery of autonomy in daily activities and to maximise their independence by encouraging active participation of each Resident.

- Orthopaedic Rehabilitation
- Geriatric Rehabilitation
- Neurological Rehabilitation
- Post-Chirurgical Recovery

The Rehabilitation & Post Chirurgical team at DomusVida consists of Physiatrists, Neurologists, Psychiatrists, Psychologists, Physiotherapists, Occupational Therapists and Speech Therapists.

This highly qualified team is responsible for the recovery of the functional capacities of the Residents, through the recovery and maximisation of motor functions, stimulation of cognitive functions, reduction of deficits and symptom relief.
